HANGER + GIRDER

The versatile strength of industrial design meets couture detailing in a shelving solution capable of bearing your belongings without a flinch. HANGER and GIRDER are structural design elements that are not just fit for purpose, they're fit for life.

HANGER SHELF

[function. **STORAGE.**]

[info. **PRODUCT.**]

[max load. **30KG.**]

Industrial styling cues and function meets fashion-inspired detailing in this versatile shelf. Hanger's hand polished 20mm solid metal pan rail can be used to keep culinary equipment close to hand in the kitchen, or for hand towels in a bathroom. The shelf itself includes a matching 12 mm guard rail to secure your items. HANGER has a 'double shelf' to increase storage and display capacity. Used as a standalone shelf, or as part of a combination with Girder, the design has a purposeful elegance. All refined by hand, and signed with the Buster + Punch insignia.

WE'RE ALL ABOUT THE DETAILS

GIRDER and HANGER share similar processes, beginning life as solid sheets of 4mm aluminium, laser cut into shape. Their form is given by industrial bent pressing, before they're powder coated. The pan and guard rail are hand polished solid metal bar. Both shelves feature a concealed adjustable wall fixing system.

GIRDER SHELF

[function. **STORAGE.**]

[info. **PRODUCT.**]

[max load. **30KG.**]

Lifting its inspiration from the girder used structurally in architecture across the world, GIRDER is an exercise in performance engineering. Crafted from a laser cut sheet of 4mm aluminium, which is then press bent into shape, its proportions are optimised to hold all manner of things with plenty of space to spare. An 'open' design lets you place taller items like bottles or artworks and its guard rail makes sure they stay put. The shelf's hand polished 12mm solid metal guard rail contrasts against the industrial hues of the shelf, framing your books, porcelain, jewellery or colognes. Our signature coin screws give that Buster + Punch finesse to wherever you choose to hang it.

"The pieces are similar to how a fashion house releases a unisex collection – we don't want to tell you to hang them in a specific space or place. We have made them easy to install and given them a balance of function and style, with softened industrial cues. Place them wherever you want, and style accordingly."
